

US Army Corps of
Engineers®

Construction Quality Management (CQM) for Contractors

May 1-2, 2012

NOTICE:

Registration opens April 2, 2012

Do you work with the Corps of Engineers?

New Corps of Engineers construction contracts require that the prime contractor's Quality Control Representatives have successfully completed a "Construction Quality Management for Contractors" course. This course will provide you with a better understanding of the Corps of Engineers' quality control/quality assurance procedures. Upon successful completion of the class, you will receive a certificate good for 5 years that is valid for Corps, Navy, and other Federal agencies' projects.

Who should attend this course:

Contractor Quality Control personnel who work on U.S. Army Corps of Engineers' construction contracts.

Topics:

- What is Construction Quality Management
- Quality Management Planning
- Contractor and Government Responsibilities

How You Will Benefit:

- Work more effectively on U.S. Army Corps of Engineer's construction contracts
- Improved understanding of the function and importance of Contractor Quality Control
- Discuss contractor and Government interrelationships
- Earn a training certificate that is required for Corps contracts

What You Should Bring:

It is strongly recommended that you bring your own CQM Study Guide. [CLICK HERE TO DOWNLOAD THE CQM STUDY GUIDE](#)
