4101 JEFFERSON PLAZA NE
ALBUQUERQUE NM 87109-3435

April 26, 2012

Planning, Project & Program Management Division
Planning Branch

The Albuquerque District, U.S. Army Corps of Engineers, has released the following document for public review and comment:

**Draft General Reevaluation Report /
Supplemental Environmental Impact Statement II:
Rio Grande Floodway, San Acacia to Bosque del Apache Unit,
Socorro County, New Mexico**

The report describes a proposed flood risk management project along the Rio Grande from San Acacia downstream to San Marcial. The recommended plan is to replace the existing embankment between the Low Flow Conveyance Channel and the Rio Grande with a structurally competent levee capable of containing high-volume, long-duration flows. This engineered levee would substantially reduce the risk of damage from floods emanating from the Rio Grande. The local cost-sharing sponsors of the proposed project are the Middle Rio Grande Conservancy District and the New Mexico Interstate Stream Commission.

Copies of the document are available at: <http://www.spa.usace.army.mil/fonsi/>
Copies also are available for review at the Socorro Public Library, 401 Park St, Socorro, NM.

The public review and comment period begins on April 27, 2012. All comments must be submitted or postmarked no later June 11, 2012.

Comments and questions may be addressed to:

William DeRagon, (505) 342-3358, william.r.deragon@usace.army.mil or
Mark Doles, (505) 342-3364, mark.w.doles@usace.army.mil;
U.S. Army Corps of Engineers
4101 Jefferson Plaza NE
Albuquerque, New Mexico 87109

A public meeting will be held in Socorro during the public review period. An announcement of the exact date and location of the public meeting will be published in Socorro, Albuquerque, and Santa Fe newspapers.
