

## Notice of Availability

The U.S. Army Corps of Engineers, Albuquerque District, has completed the **Draft Environmental Assessment (DEA) entitled “27<sup>th</sup> Street Bridge Section 14 Emergency Streambank Protection, Glenwood Springs, Colorado”**. The bridge footers are being undercut by the river and potentially threatening the stability of the bridge. The deck of the bridge was also in need of repair so in November 2001, the City replaced the deck of the bridge with a heavier new deck. This added weight has made it a critical situation to abate the potential of future channel scour and repair the footers.

The DEA is electronically available for viewing and copying at the Albuquerque District website (under “FONSI/ Environmental Assessments”) at:

<http://www.spa.usace.army.mil>

or a hard copy will be sent upon written request to the following address:

U.S. Army Corps of Engineers  
Albuquerque District  
Environmental Resources Section  
Attn: CESP-PM-LE (Ms. Ondrea Hummel)  
Albuquerque, New Mexico 87109-3435

The public review will extend from December 15, 2003 through January 14, 2003. Written comments should be sent to the above address and will be accepted until 4:30 PM, January 14, 2003. Alternatively, comments may be sent electronically to [ondrea.c.linderth-hummel@usace.army.mil](mailto:ondrea.c.linderth-hummel@usace.army.mil).
