	Applicable/supporting scientific literature; Click here to enter text.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: The project area is to the west and outside of the ordinary high water mark (OHWM) of the Rio Grande. There are no aquatic resources or potential aquatic resources in the 490 acre review area that would warrant the application of a significant nexus analysis, or navigability determination. There are no features that have lateral limits of jurisdiction (OHWM).
