

**REQUEST FOR JURISDICTIONAL DETERMINATION**

This request sheet should be used when a jurisdictional determination (JD) is required from the U.S. Army Corps of Engineers, Albuquerque District. It is intended to help both the requestor and the Corps in determining which type of JD, if any, is appropriate. Use of the sheet is optional; however the information and consent is needed to complete a JD. If you are applying for a Department of the Army permit, you do not need to request a JD. A jurisdictional determination is not required to process a permit application. At the time an application is submitted, the Corps will assume the aquatic resources on the parcel/within the review area are waters of the United States for the purpose of making a permit decision. With no JD requested, the permit application may be processed more quickly. The permittee retains the ability to request a JD any time during or after the permit application review process.

I am requesting the U.S. Army Corps of Engineers, Albuquerque District, complete a jurisdictional determination for the parcel/ review area located at:
