

Notice of Availability
Draft Environmental Assessment and Finding of No Significant Impact
Regina Mutual Domestic Water Consumers Association Water System Improvements Project-
Phase 3: Naranjo Creek Road Regina, Sandoval County, NM

The U.S. Army Corps of Engineers (Corps), Albuquerque District, in cooperation with the Regina Mutual Domestic Water Consumers Association (MDWCA) has completed a Draft Environmental Assessment (EA) and Draft Finding of No Significant Impact (FONSI) for the **Regina Mutual Domestic Water Consumers Association Water System Improvements Project- Phase 3: Naranjo Creek Road, Regina, Sandoval County, New Mexico**. The Draft EA evaluates alternatives for water system improvements. The project is located approximately 8.3 miles north of Cuba, New Mexico, and approximately 2.7 miles south of Regina, in Sandoval County, New Mexico; water system improvements are proposed along Naranjo Creek Road.

The proposed project would remedy deficiencies in the existing water system along approximately 14,000 linear feet of Naranjo Creek Road. The project would replace existing 2-inch waterline with 6-inch waterline including all appurtenances and replacement of customer meters. The proposed project would address service and sanitary deficiencies, as well allow the Regina MDWCA to provide a minimum of 250 gallon per minute for a period of two hours for its users to qualify for Public Protection Classification Class 8 for fire protection.

The Draft EA is electronically available for viewing and copying at the Albuquerque District website (under “FONSI/Environmental Assessment”) at:

<https://www.spa.usace.army.mil/Missions/Environmental/Environmental-Compliance-Documents/Environmental-Assessments-FONSI/>

A hard copy of the Draft EA will be available at the Cuba Public Library, Sandoval County, New Mexico. The Draft EA and FONSI will be available for public review from October 18, 2025 until November 18, 2025. Written comments may be sent to:
